Summary:

A full-stack web developer with internship experience in React, Bootstrap, Tailwind CSS, Next.js, Node.js, and MySQL. Skilled in developing responsive and performance-optimized UIs and secure REST APIs using modern libraries and frameworks. Known for strong problem-solving abilities, a mindset to face challenges, and a strong passion for learning. Passionate about contributing to impactful and user-oriented web projects and solving challenging problems.

Educational Qualifications:

- B.Sc. in Mechatronics Engineering – KUET | 2024 – CGPA: 3.16/4.00
- HSC, Science – Government Science College | 2018 – GPA: 4.58/5.00
- SSC, Science – A.K. School and College | 2016 – GPA: 5.00/5.00

Experience:

Frontend Development Intern – Krytix Solutions | August 2025 – present

- Building responsive and user-friendly UIs using modern UI libraries, reducing loading time by 10-20%

Web Development Intern – Itransition Group | May 2025 - July 2025

- Developed REST APIs with Express.js, with CORS and rate-limiting for secure cross-platform data exchange
- Developed web apps with web sockets for real-time data exchange using Socket.IO
- Developed web apps with responsive and 10-20% faster loading web pages using modern libraries, improving overall app performance and user experience

Technical Skills:

- **Front-end:** JavaScript (ES6+), React.js, Redux, Bootstrap, Material UI, Tailwind CSS
- **Back-end:** Node.js, Express.js, Sequelize
- **Databases:** MySQL, PostgreSQL
- **Tools & Platforms:** Git, GitHub, Visual Studio Code, Vercel, Netlify, Render
- **Core:** OOP, DSA, REST APIs, RDBMS, SOLID Principles

Soft Skills:

- Teamwork
- Communication
- Collaboration
- Problem-solving
- Attention to detail

Language Proficiencies:

- Bengali – Native
- English – Conversational

Projects:

- An online presentation builder app | <https://github.com/nayem-uddin/itransition-task-6-frontend.git>
 - Developed with React.js, Bootstrap, Socket.IO, and Express.js
 - Several third-party libraries, like React-Markdown, Spectacle, etc., were used
 - Has the feature of creating slides containing markdown-supported textboxes
- A book-showcase | <https://github.com/nayem-uddin/itransition-task-5.git>
 - Developed with React.js and Bootstrap
 - Has the feature of filtering books based on language, likes, and reviews
 - Data on the page can be exported to CSV
- A cloud-based form builder app | <https://github.com/nayem-uddin/itransition-project-frontend.git>
 - Developed with React.js, Bootstrap, Material UI, Express.js, and Sequelize
 - The user can create any type of form they want, and control the access to their created form, thus preserving the form from unwanted access
 - The user can edit their forms later when necessary, thus getting an opportunity to reduce errors
 - An admin can correct or delete a form when needed, like the creator
